

Catalin Siegling

Full-Stack Software Engineer

SUMMARY

Creative, meticulous, software engineer with a deep interest in AI. Proven experience with creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach and strong inclusive values.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, Remote

January 2022 — Present

- Collaborated with multiple teams of developers to build modern and responsive web applications using best practices.
- Built semantically structured full-stack web applications using JavaScript, Express, Node, and MongoDB on the backend.
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Bubbas Recipes, Star Trek Federation Field Guide, Small Lakes Casino Virtual Slot Machine, APOD Web App with NASA API integration, and many more.

DabTech | Summerville, SC, Remote

January 2020 — August 2021

- Created full-stack web applications and static websites for different clients across small and medium size businesses.
- Consulted on SEO and social media strategy.

Equities trader at Catalin's Consulting | Wichita, KS

January 2018 — March 2022

- Trading equities of up to \$37mil a year while managing risk appropriately and learning to use different financial instruments.
- Performed in-depth financial and operational due diligence on prospective investments by analyzing market trends.

VOLUNTEERING

Kansas City Developer Conference | Kansas City, Kansas

August 2022
